

SRI A.S.N.M.GOV'T COLLEGE (A),
PALAKOL, W.G.DT -534260.
Institutional Best Practices

I. Title of the Practice:

Social Responsibility & Community Engagement

II. Objectives of the Practice:

- Expose the students to community related issues
- To involve the students in community related issues
- To help the needy and helpless communities during natural calamities
- To establish a direct relationship between the Organization and society
- To make learning a practical experience

III. The Context:

Keep in view of various occasions and there stake holders the College intense to establish harmonious relationship. As such one of the ways to promote the same is by taking students directly to the needy communities on various occasions and important days.

IV. The Practice:

1. Flood relief camp:

A flood relief camp was organized among four villages namely Lakshmi puram, Doddipatla, Yelamanchili lanka, Abbirajupalem. The victims of the flood were distributed food packets in those villages. The Camp was funded by staff and students generously.

2. Vaccination:

Today the entire humanity is scared about COVID-19 however the Vaccine has come to rescue and help humanity live confidently.

Therefore the College took initiative to organize the awareness and Vaccination Camp to the students and staff.

3. Aids Day

A Sensitization programme was organized for the staff and students. Since the world is shaken by the fear of HIV. The sensitization Programme was aimed at chasing by the misconceptions. This sensitization programme has ruled out all such wrong notions and informed to maintain the inclusive society

4. Helping hands:

The students and staff of Sri A.S.N.M. Govt College (A) raised fund to help an outgoing B.Com student who met with an accident towards his medical assistance. All the staff and students have generously contributed towards his medical assistance

5. Eye testing, Blood donation, Diabetic test :

A Sensitization Programme on Eye testing was organized by the N.S.S Units for all the students and a free eye testing camp was organized for the students by the NSS Units. The two NSS teams of Sri A.S.N.M. Govt College (A) organized a blood donation camp. Therefore the awareness about blood donation camp. A Free diabetic test was organized for the faculty jointly by the NSS Units and the Lions club of India.

V. Evidence of success:

- The flood relief camp has created among the students the concern towards national calamities. The medical support extended to the students has created among the students a deeper outlook of understanding the victim.
- The Sensitization programme organized on Eye camp enlightened the students about the significance and importance of Eye and vision for human beings.
- The blood donation camp was a grand success and reached its goals.
- The diabetic test conducted for the staff was a major success and many of the staff got benefited out of it.
- The Vaccination programme has achieved its targets and many students both boys and girls along with some of the staff have received the second dose.
- The Aids Day rally has met its targets and brought a major change in the attitude of public on health issues.

VI. Problems Encountered:

- Limited resources
- Limited man power
- Restricted time
- Inadequate funding

VII. Resources required to:

- Adequate funding
- Enough man power
- Adequate resources
- Time

2. Title of the Practice:

Green practices and Environmental protection

II. Objectives of the Practice:

- Expose the students to create awareness on environment
- To involve the students in Greenery activities
- To protect the environment from Air pollution and global warming
- To establish a direct relationship between the Nature and Environment
- To make the students a tree will save thousands of lives as learning practice

III. The Context:

Keep in view of the campus with greenery atmosphere the College intense to establish an innovative program

IV. The Practice:

1. Tree Plantation:

In view of the increasing Global Warming we have carried out a Tree Plantation programme not only in our college campus but also in the adopted villages. The programme is aimed at inculcating the habit planting trees. Also to educate the students about the dire need to plant trees in order to enjoy the pollution free environment.

2. Green Campus Initiatives:

The Institution initiatives for greening the Campus are

- Use of bicycles
- Landscaping with trees and plants
- Restricted entry of automobiles
- Ban on use of Plastic
- Using Digital banners instead of Plastic banners

3. Watering the Plants:

The Gardener, the Students of Botany Department and Volunteers of NSS units take care of watering the plants periodically from time to time

V. Evidence of success:

- Staff, Students and NSS volunteers voluntarily take care of the survival of the plants by way of assigning the sum number of plants to each one of the members
- The Tree plantation programme has successfully met its goals by encouraging students to inculcate planting trees as a habit.
- Monitoring and treating the plants by assigning numerical number to each plant

VI. Problems Encountered:

- Limited resources
- Limited man power
- Poor support from stake holders
- Threat from the swine, cows, buffalos and horses
- During the dry season heat waves in sufficient water will damage the plants

VII. Resources required to:

- Adequate funding
- Enough man power
- Active involvement of the stake holders
- Sufficient water resources
